ARCHITECTURE

WANGE The world's great architect since 1991

Prophet's Mosque

The Prophet's Mosque is the second mosque built by the Islamic prophet Muhammad in Medina, after that of Quba, as well as the second largest mosque and holiest site in Islam, after the Masjid al-Haram in Mecca, in the Saudi region of the Hejaz.

Prophet's Mosque

Geography and culture

地理·文化

The Prophet's Mosque is located at the heart of Medina, and is a major site of pilgrimage that falls under the purview of the Custodian of the Two Holy Mosques.

The world's great architecture

Buildings and layout

■ 建筑物和布局

The modern-day mosque is situated on a rectangular plot and is two stories tall. The Ottoman prayer hall, which is the oldest part of the mosque, lies towards the south. It has a flat paved roof topped with 27 sliding domes on square bases. Holes pierced into the base of each dome illuminate the interior when the domes are closed. The sliding roof is closed during the afternoon prayer (Dhuhr) to protect the visitors. When the domes slide out on metal tracks to shade areas of the roof, they create light wells for the prayer hall. At these times, the courtyard of the Ottoman mosque is also shaded with umbrellas affixed to freestanding columns. The roof is accessed by stairs and escalators. The paved area around the mosque is also used for prayer, equipped with umbrella tents.

The chamber adjacent to the Rawdah holds the tombs of Muhammad and two of his companions and father-in-laws, Abu Bakr and Umar. A fourth grave is reserved for ʿĪsā (Jesus), as Muslims believe that he will return and will be buried at the site. The site is covered by the Green Dome. It was constructed in 1817 CE during the reign of the Ottoman sultan Mahmud II and painted green in 1837 CE.

History

Originally an open-air building, the mosque served as a community center, a court of law, and a religious school. It contained a raised platform or pulpit (minbar) for the people who taught the Quran and for Muhammad to give the Friday sermon (khutbah). Subsequent Islamic rulers greatly expanded and decorated the mosque, naming its walls, doors and minarets after themselves and their forefathers. After an expansion during the reign of the Umayyad caliph al-Walid I (r. 705–715), it now incorporates the final resting place of Muhammad and the first two Rashidun caliphs Abu Bakr (r. 632–634) and Umar (r. 634–644). One of the most notable features of the site is the Green Dome in the south-east corner of the mosque, originally Aisha's house, where the tomb of Muhammad is located. Many pilgrims who perform the Hajj also go to Medina to visit the Green Dome.

Academic reputation

In world rankings, MSU was ranked 101st–150th by the Academic Ranking of World Universities 2022, #75 by QS World University Rankings 2023, and #355 by U.S. News & World Report 2023. According to the some international rankings MSU is the highest-ranked Russian university (with the nearest Russian competitor being Saint Petersburg State University), but it was consistently ranked outside the top 5 nationally in 2010–11 by Forbes and Ria Novosti / HSE, with both ratings based on data set collected by HSE from Russian Unified State Exam scores averaged per all students and faculties of university.

В мировых рейтингах МГУ занимал 101–150-е место в Academic Ranking of World Universities 2022, 75-е место в QS World University Rankings 2023 и 355-е место в U.S. News & World Report 2023. Согласно некоторым международным рейтингам, МГУ является российским университетом с самым высоким рейтингом (ближайшим российским конкурентом является Санкт-Петербургский государственный университет), но в 2010–2011 годах он неизменно находился за пределами первой пятерки в национальном рейтинге по версии Forbes и РИА Новости/НИУ ВШЭ, причем оба рейтинга основаны на наборе данных, собранных НИУ ВШЭ из средних баллов ЕГЭ по всем студентам и факультетам университета.

Color matching

Adopting 3 main colors, Beige, White and black as the main color, the more reasonable and bold color matching on the original building, making the product more atmospheric and the whole design is more reasonable.

■ First open the product packaging according to the instructions.

按指导用正确方式拆解产品外包装。

■ Summarize all parts to count the number of familiar accessories.

对照说明书清单确认积木包数量与积木数量。

■ Arranging all accessories by color helps to quickly install the product.

把确认好的积木以类型、颜色进行分类排好以便安装。

■ Carefully install the product and learn about building.

按说明书步骤拼装并完成你的积木模型。
