# Buildings and layout

■ 建筑物和布局

The Empire State Building is a 102-story[c] Art Deco skyscraper in Midtown Manhattan in New York City, United States. The site of the Empire State Building, in Midtown South on the west side of Fifth Avenue between West 33rd and 34th Streets, was developed in 1893 as the Waldorf–Astoria Hotel. Its name is derived from "Empire State", the nickname of the state of New York. The building's size has become the global standard of reference to describe the height and length of other structures. A symbol of New York City, the building has been named as one of the Seven Wonders of the Modern World by the American Society of Civil Engineers.

Actualmente, el Empire State es de los rascacielos más emblemáticos e icónicos del mundo por su historia y su gran altura destacable en el siglo pasado. Incluyendo la antena, su altura es de 1453 pies (443 m) convirtiéndolo en el tercer edificio más alto de la ciudad de Nueva York por detrás del One World Trade Center y Central Park Tower. El Empire State Building ha sido nombrado por la Sociedad Estadounidense de Ingenieros Civiles como una de las Siete Maravillas del Mundo Moderno. El edificio y su interior son catalogados como monumentos de la Comisión para la Preservación de Monumentos Históricos de Nueva York, y confirmado por la Junta de Estimación de la Ciudad de Nueva York.

## Architecture

The longest world record held by the Empire State Building was for the tallest skyscraper (to structural height), which it held for 42 years until it was surpassed by the North Tower of the World Trade Center in October 1970. The Empire State Building was also the tallest man-made structure in the world before it was surpassed by the Griffin Television Tower Oklahoma (KWTV Mast) in 1954, and the tallest freestanding structure in the world until the completion of the Ostankino Tower in 1967.

El Empire State Building se eleva hasta los 381 metros (1250 pies) a nivel del piso 102, e incluyendo los 62 metros (203 pies) del pináculo, su altura total llega a los 443 metros o 1453 pies y 8 pulgadas. Fue el primer edificio en tener más de 100 pisos. Tiene 6500 ventanas y 73 ascensores, y hay 1860 pasos desde el nivel de la calle hasta el piso 102. Tiene una superficie total de 257 211 m<sup>2</sup>; la base del Empire State tiene unos 8094 m<sup>2</sup>.

## History

According to The New York Times, builders and real estate speculators predicted that the 1,250-foot-tall (380 m) Empire State Building would be the world's tallest building "for many years", thus ending the great New York City skyscraper rivalry. At the time, most engineers agreed that it would be difficult to build a building taller than 1,200 feet (370 m), even with the hardy Manhattan bedrock as a foundation. Technically, it was believed possible to build a tower of up to 2,000 feet (610 m), but it was deemed uneconomical to do so, especially during the Great Depression. As the tallest building in the world, at that time, and the first one to exceed 100 floors, the Empire State Building became an icon of the city and, ultimately, of the nation.

El Empire State Building fue diseñado por William F. Lamb, socio de la empresa de arquitectura Shreve, Lamb y Harmon, quienes realizaron los dibujos del edificio en tan solo dos semanas, utilizando como base anteriores diseños, como el Edificio Reynolds en Winston-Salem, Carolina del Norte y la Torre Carew de Cincinnati, Ohio, diseñada ésta por el arquitecto Walter W. Ahlschlager. La excavación del emplazamiento se inició el 22 de enero de 1930, y la construcción del propio edificio comenzó simbólicamente el 17 de marzo (día de San Patricio). En el proyecto participaron 3400 trabajadores, en su mayoría inmigrantes procedentes de Europa, junto con cientos de trabajadores Mohawk expertos en hierro, muchos de ellos de la reserva de Kahnawake, cerca de Montreal. Los nietos del gobernador Smith cortaron la cinta el 1 de mayo de 1931.

Product Size:272X175X629mm

■ First open the product packaging according to the instructions.

按指导用正确方式拆解产品外包装。

■ Summarize all parts to count the number of familiar accessories.

对照说明书清单确认积木包数量与积木数量。

■ Arranging all accessories by color helps to quickly install the product.

把确认好的积木以类型、颜色进行分类排好以便安装。

■ Carefully install the product and learn about building.

按说明书步骤拼装并完成你的积木模型。
