# About The Building

**The United Nations**, is headquartered in New York City in a complex designed by a board of architects led by Wallace Harrison and built by the architectural firm Harrison & Abramovitz. The complex has served as the official headquarters of the United Nations since its completion in 1952.

# Diseño y historia posterior

El Edificio de la Sede de las Naciones Unidas (también conocido como Edificio de las Naciones Unidas) es la ubicación de la Sede de las Naciones Unidas. Está ubicado en el lado este de Manhattan en la ciudad de Nueva York. Es un territorio internacional. Por lo tanto, los ciudadanos de los estados miembros pueden ingresar con pasaportes, incluidos los estados miembros de las Naciones Unidas que no tienen relaciones diplomáticas con los Estados Unidos. El terreno fue comprado por William Jackendorf, un agente inmobiliario de Nueva York en ese momento, y cubre un área de 17 acres (aproximadamente 6.897973 hectáreas).

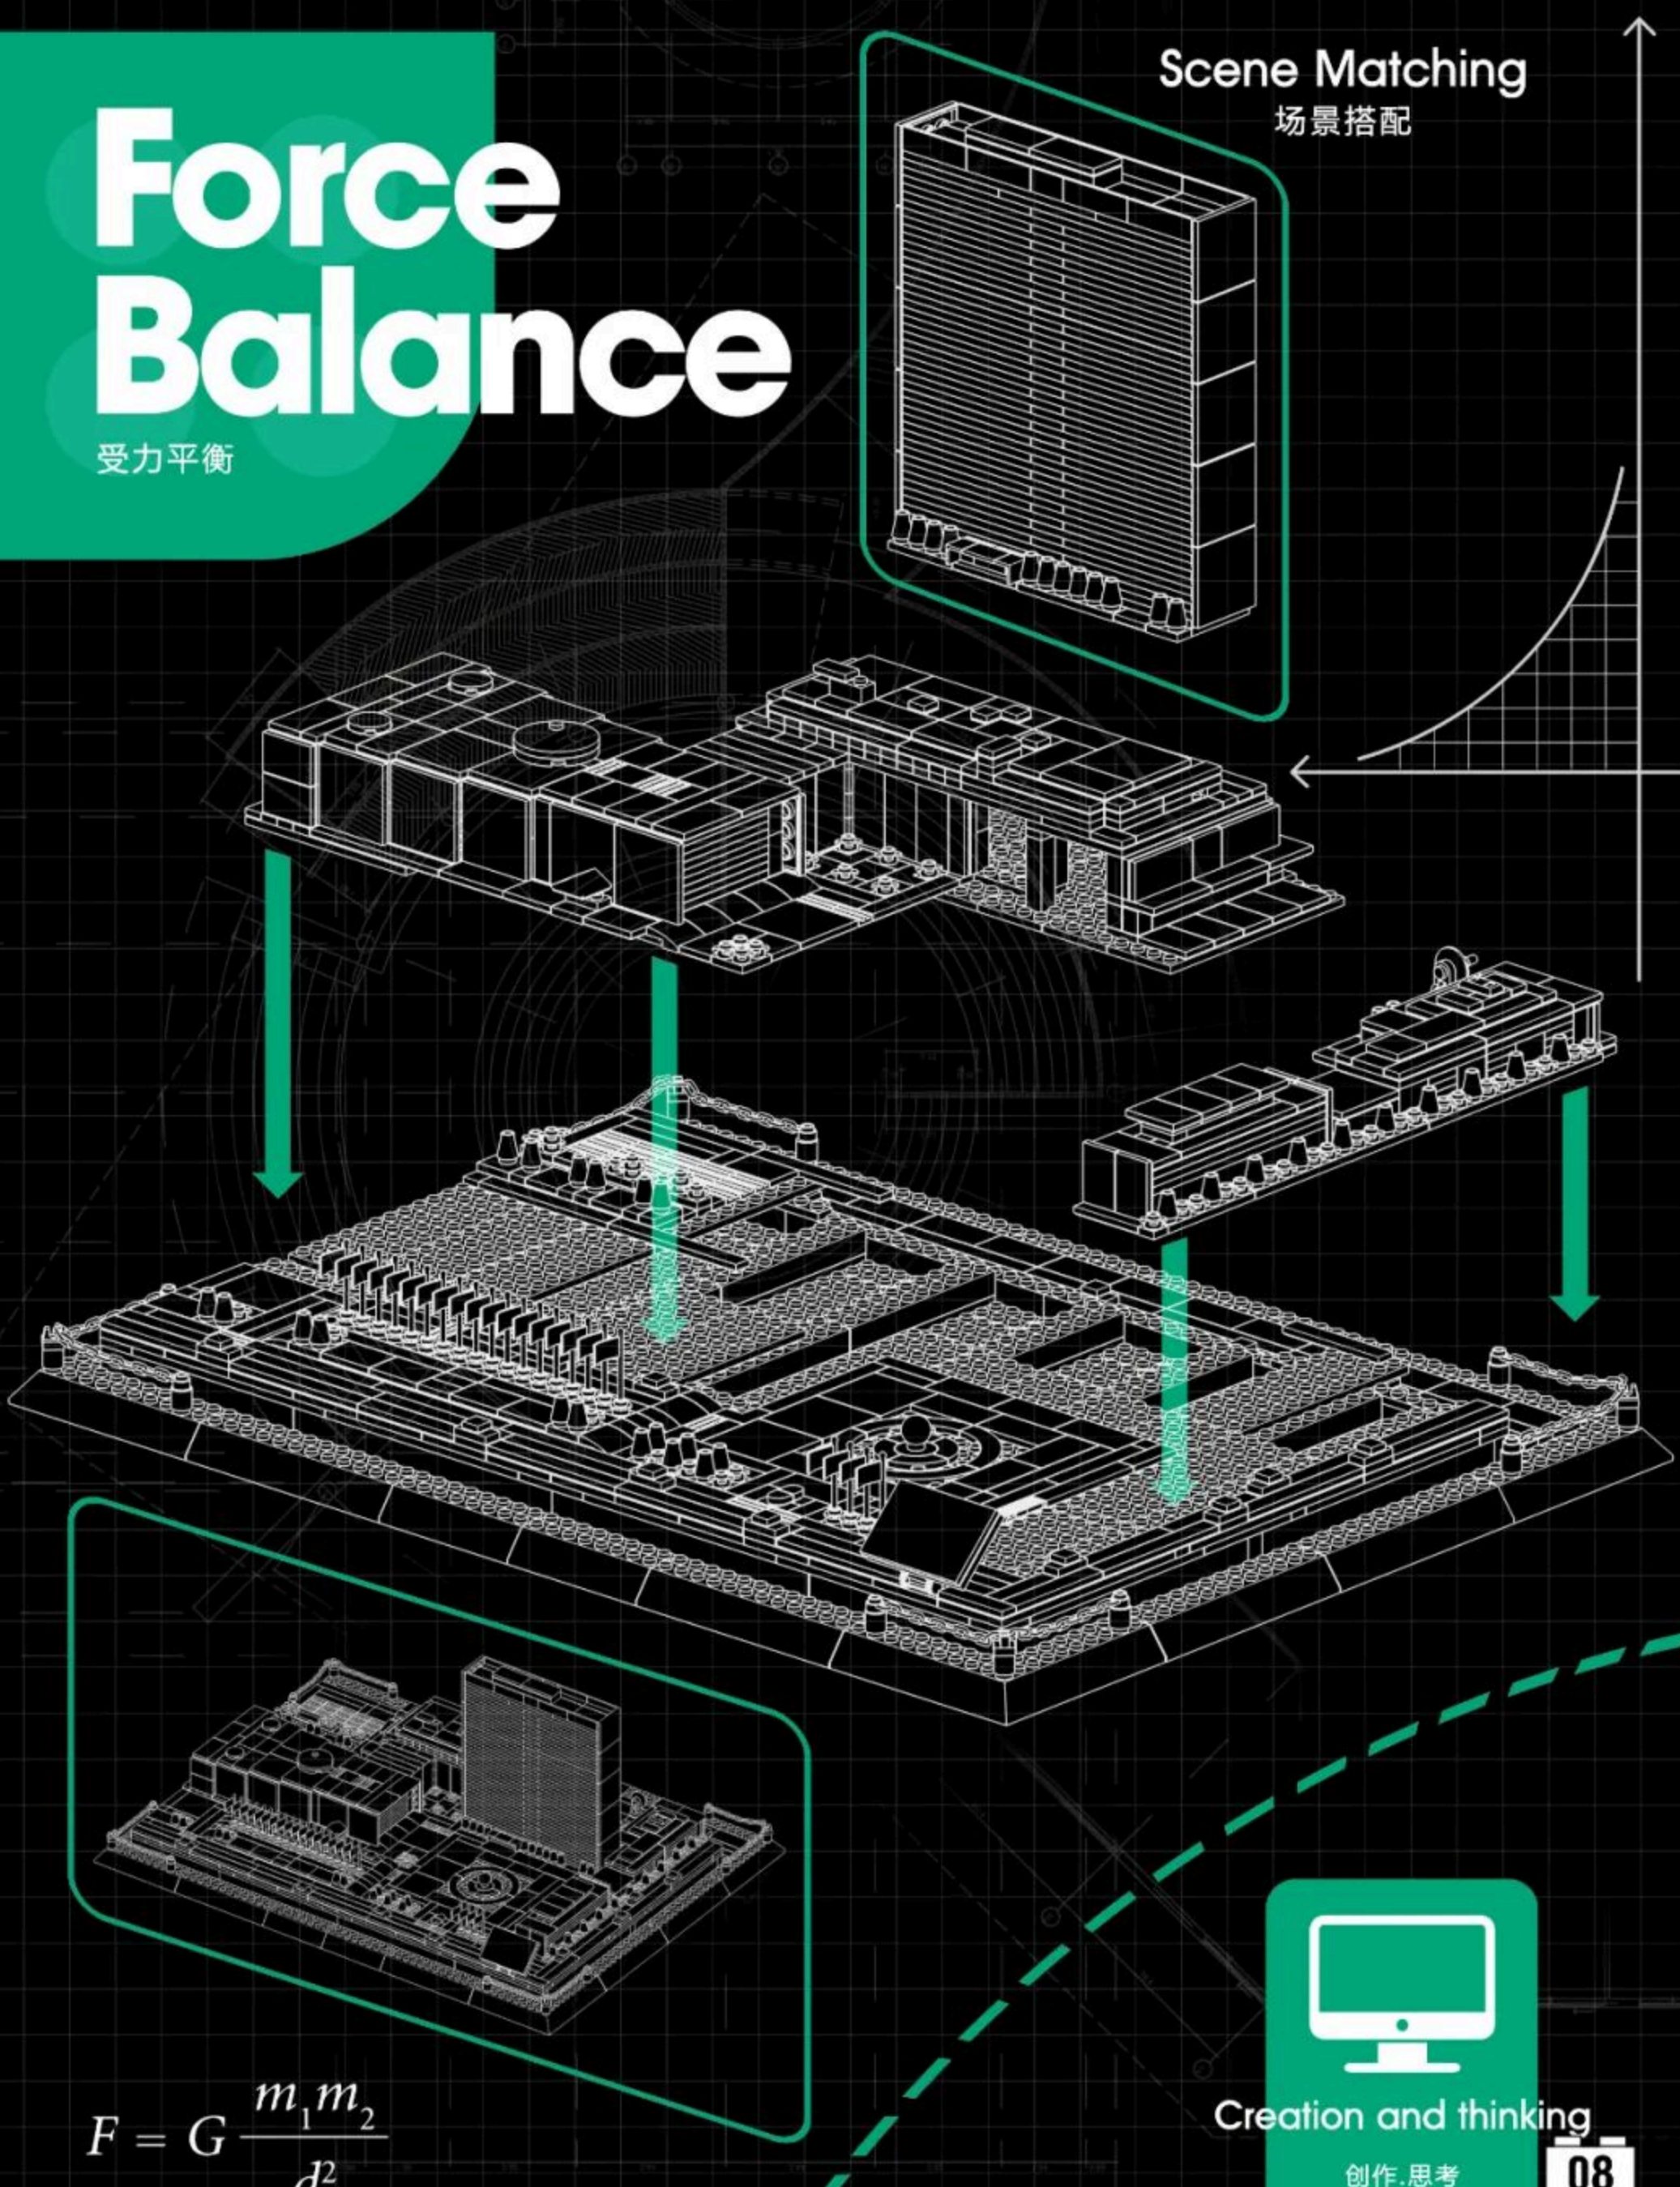

La pared interior de la sala es curva, el techo es una estructura de cable suspendido y la cúpula está superpuesta. Al sur se encuentra el edificio de la Secretaría de las Naciones Unidas con una altura de 153,9 metros y una altura de 39 pisos. Es uno de los primeros edificios de gran altura con paneles y el primer edificio en adoptar muros cortina de vidrio.
