# About the Author' s profile:

## DEMO

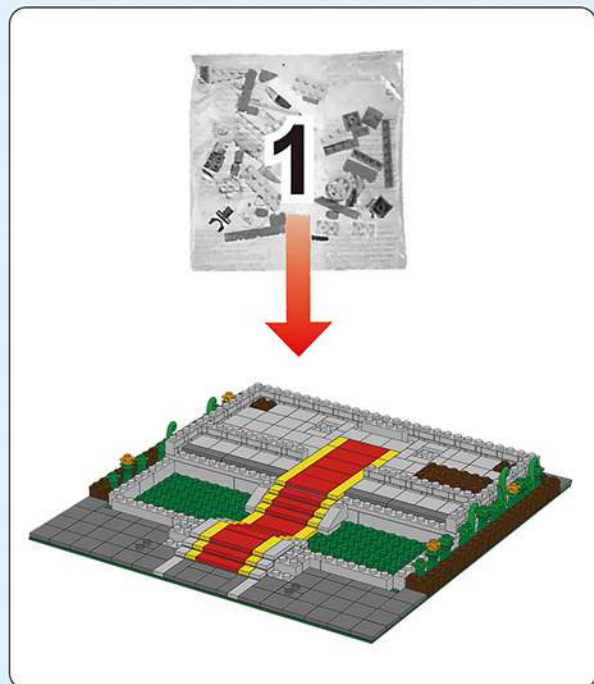

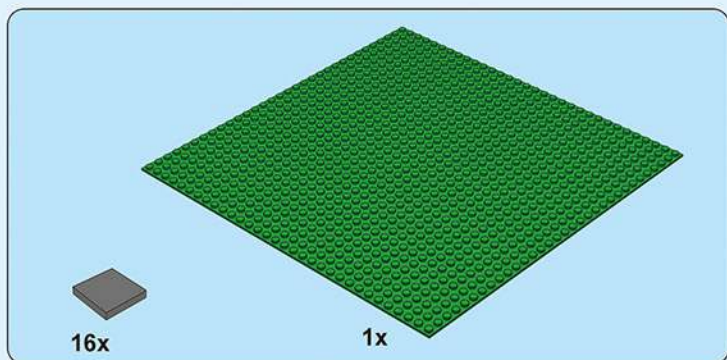

Founded in 2007, DEMO is a design company of brand-new cultural product.

Thanks to its commitment to the design and development of manual cultural and creative products over the past 10 years after its inception, it has many cultural products with independent core copyrights, which are hot-sellers throughout China.

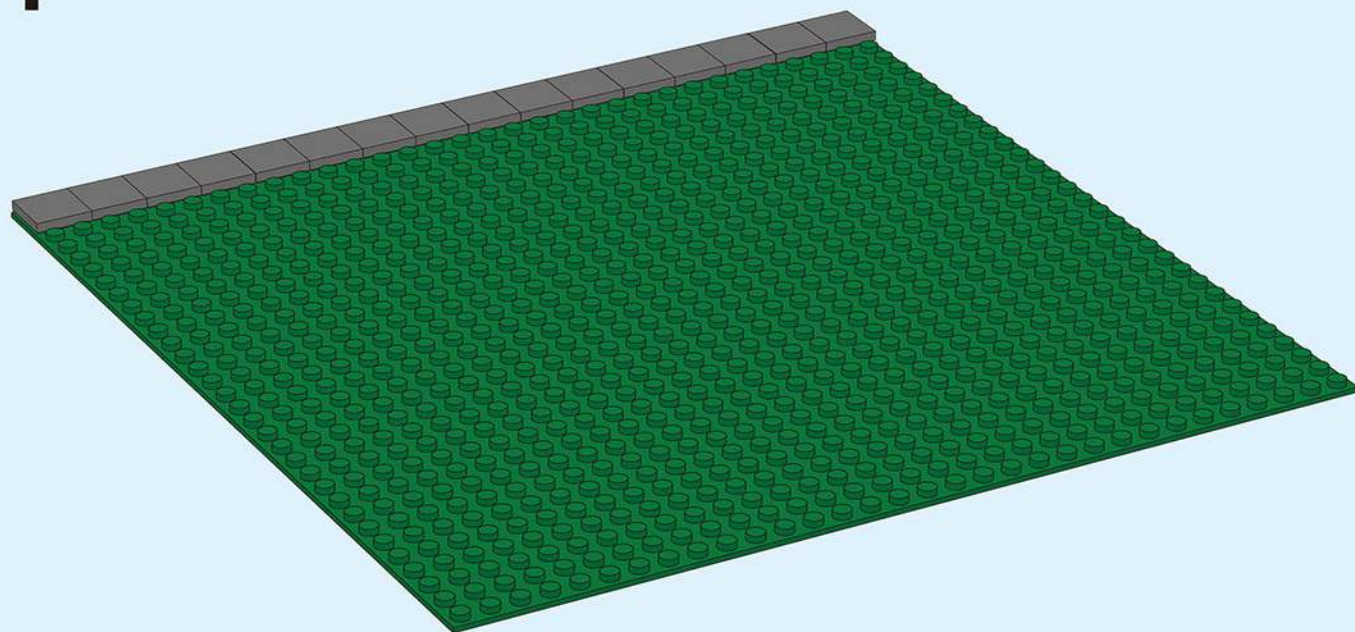

It has established 3D and two-dimensional graphic R&D teams exclusively responsible for the design of assembling bricks.

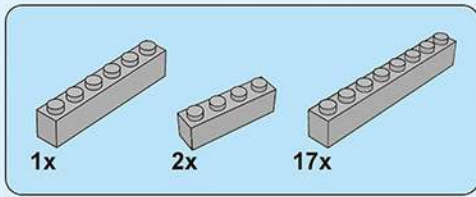

After years of exploration and innovation, it has developed some bricks featured in a strong Chinese style and strived to remain its own unique characteristics while forging ahead in the way of displaying Chinese elements.
