# USER INSTRUCTION

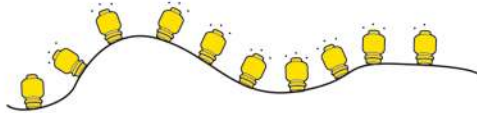

**JOY MAKES**  
BRILLIANCE.

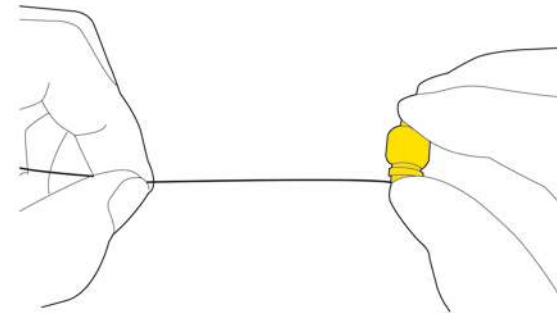

Please read the following carefully before installing the lights.

## CAUTION:

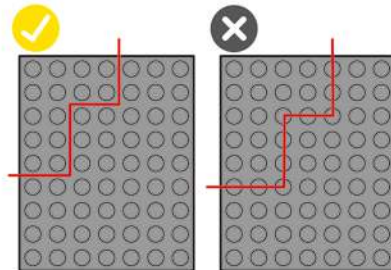

The battery is not replaceable.

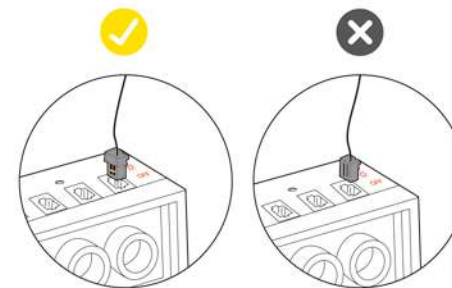

Before installing, please connect to the power supply and test the lights to make sure everything functions properly. If the lights do not work, please refer to the TROUBLESHOOTING or contact us.

LED components are delicate, so please take extra care when installing, no hard pulling, no bending or shaking.

Hide the spare wire under the bricks: when installing, please make sure that the wire is laid between two studs of the bricks, but not pressed by the bricks directly.

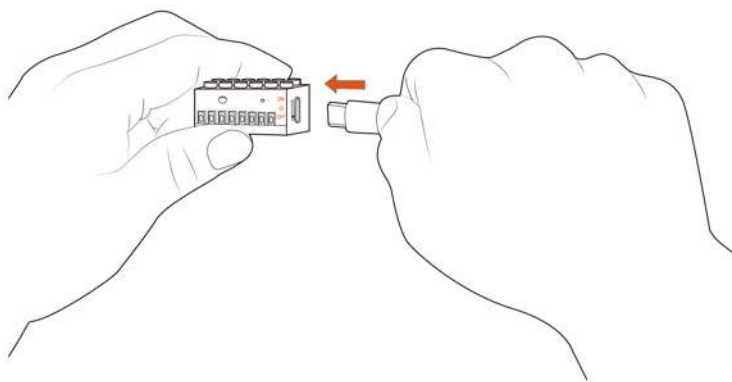

Connectors can be plugged into ports of the expansion board in only one certain way. Make sure its direction is correct before plugging.

Tips: if the connector doesn't fit easily into a port, don't force it.

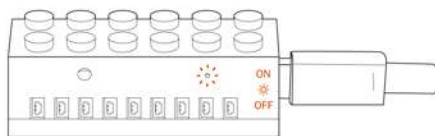

# USER INSTRUCTION

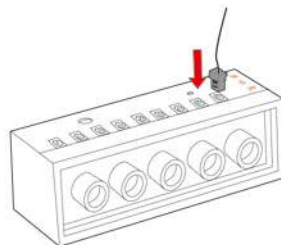

**JOY MAKES BRILLIANCE.**

When connecting to power, the input voltage must be less than 5V, otherwise, it may damage the components of the battery brick.

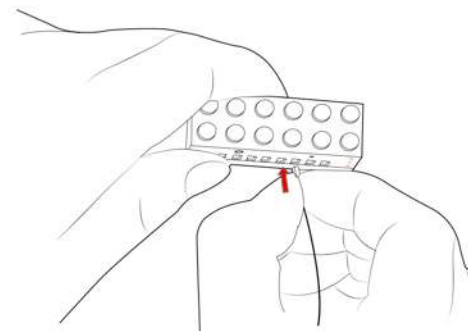

During charging, the indicator light will stay on with a red light. Once fully charged, the red light will turn off.

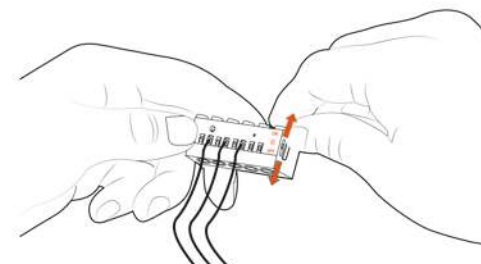

Connectors can be plugged into ports on the battery brick in only one certain way. Make sure its direction is correct before plugging.

Tips: if the connector doesn't fit easily into a port don't force it

When plugging and unplugging the wire connectors, gently pull on the white connector with your fingers. Be sure not to pull the light wire with force, as this could break the wire.

These three modes meet versatile usage scenarios, catering to different needs, whether constant illumination, energy-saving automation, or complete shutdown.

**Note:** When in use, the voltage must be less than 5V. Not for children under eight.

## LIGHTING FUNCTION DISPLAY

**OFF**

Selecting this mode completely turns off the device, ensuring no power consumption occurs until the user manually activates it.

**BATTERY BOX NAME:** Integrated Battery Brick

**RATED CAPACITY:** 150mAh

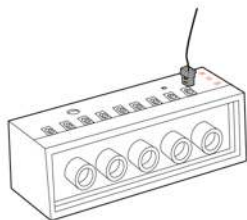

**BATTERY RATED VOITAGE:** 3.7V

## TROUBLESHOOTING

**JOY MAKES**  
BRILLIANCE.

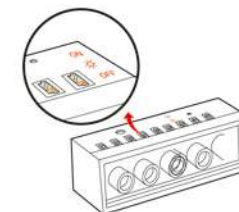

Due to their small size, lighting accessories are susceptible to damage during installation. Common causes of failure include:

Ensure that the connectors are correctly installed as shown in the picture.

Check if the wires are disconnected or broken from the solder joints.

Check the internal pins of the ports on the battery brick. The internal pins of a properly working port should be straight, if the small pins are bent, they may be considered faulty ports.

If you have checked each string of lights according to the guide above and the lights are still not working, please contact our customer service for assistance.

## SAFETY PRECAUTIONS

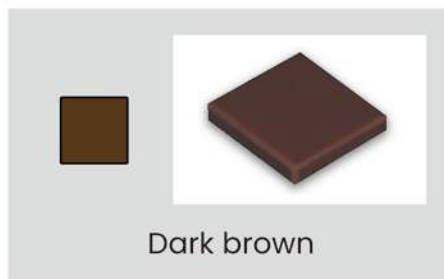

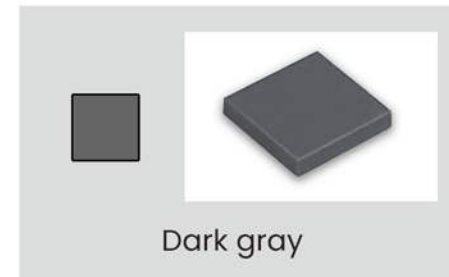

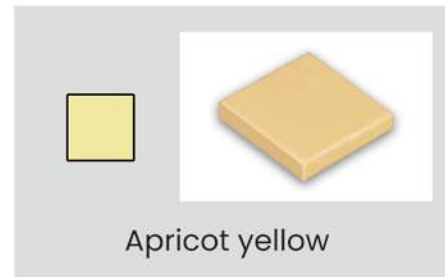

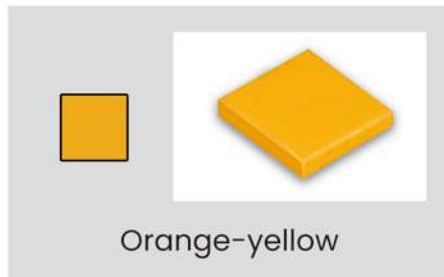

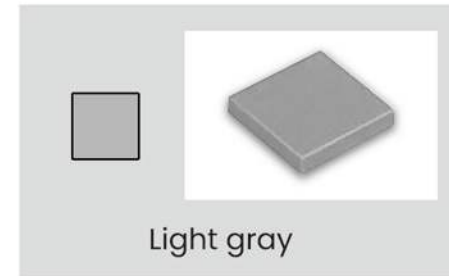

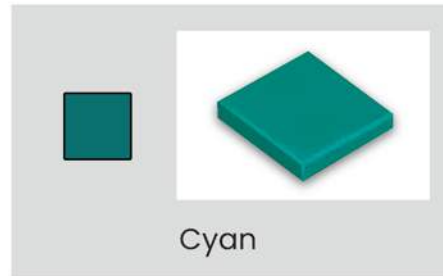

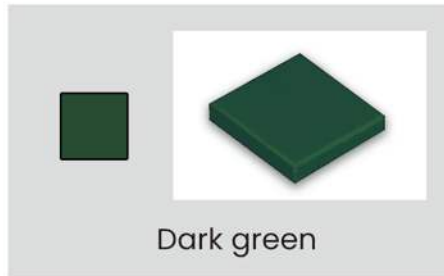

- 1 Before use, verify the voltage to avoid damage to the product and potential safety hazards. The light set must only be powered by a 5V DC (or lower) power supply. Otherwise, the resistors may overheat and burn out, shortening the lifespan of the LED beads.
- 2 The lights in the product are not replaceable. If they are damaged or not lighting up, please refer to the troubleshooting section or contact our customer service for assistance.
- 3 Avoid pulling on the lighting wires as this may cause damage.
- 4 Do not expose the product to water as it may damage the product.
- 5 If the plug does not fit easily into the ports on the board, reverse the direction and insert it again to avoid damage and short circuits, rather than forcing it in.
- 6 Please read and follow the instructions carefully during building to ensure a good building experience.

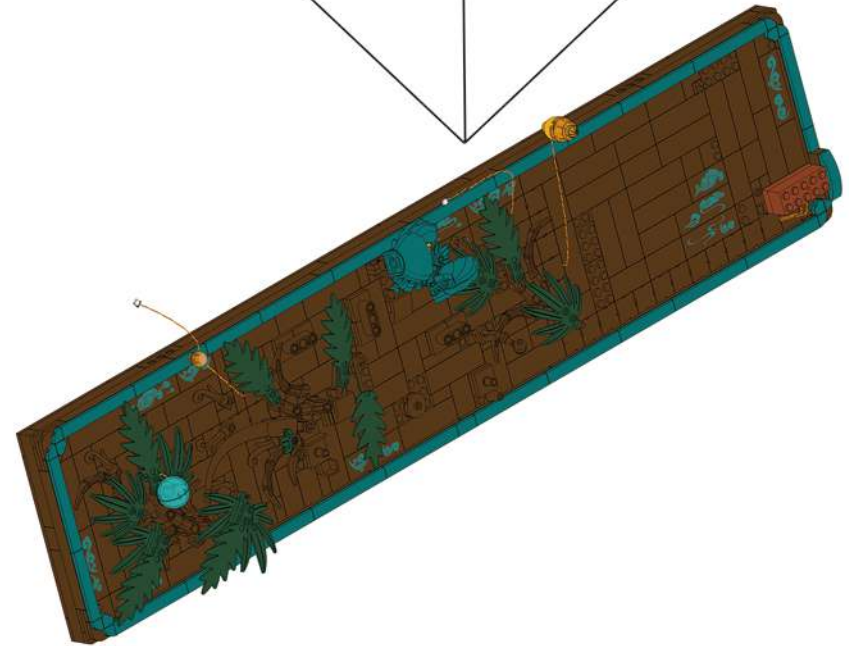

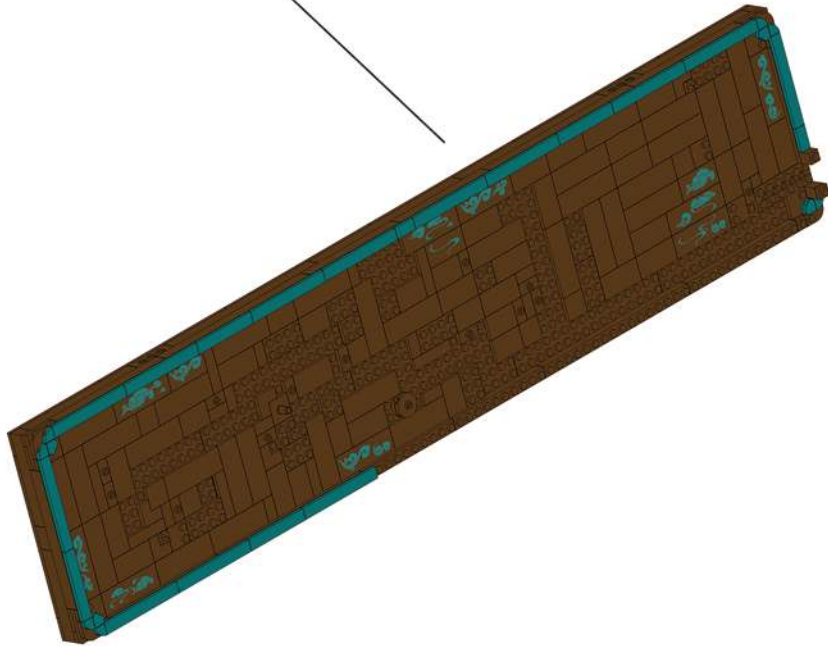

# COLOR COMPARISON

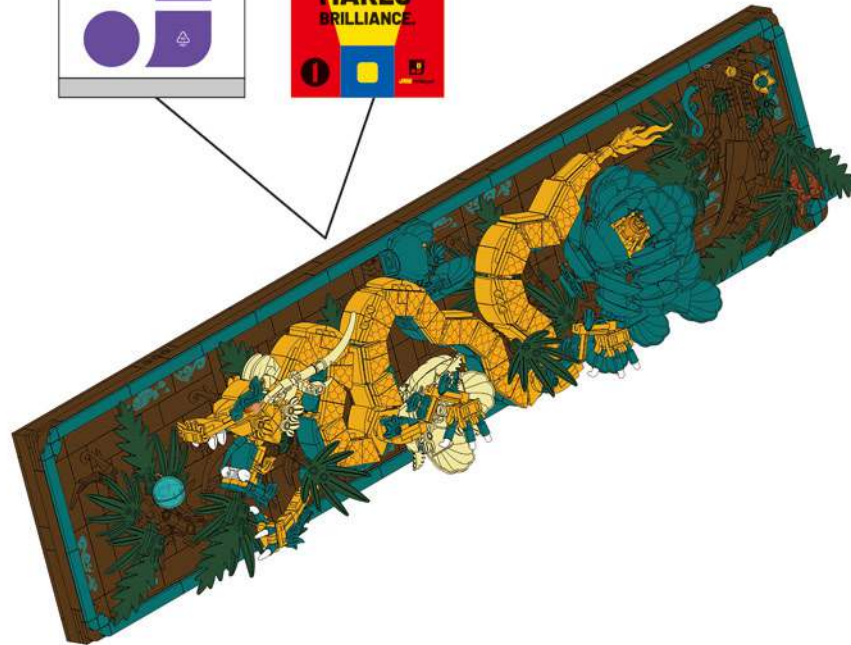

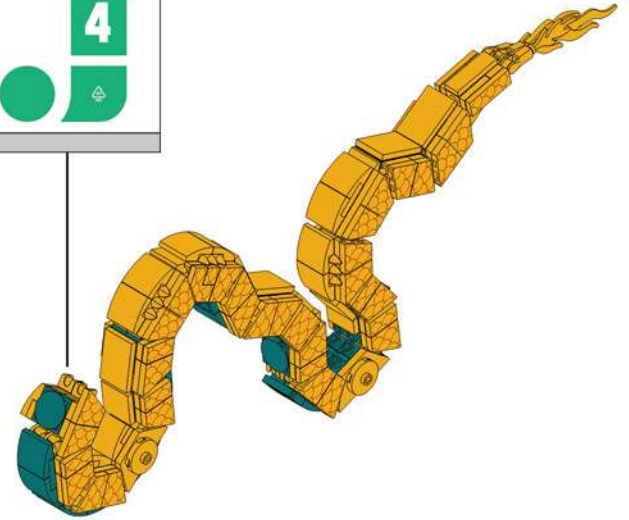

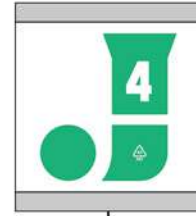

**JOY MAKES**  
BRILLIANCE.

The color used in this manual is slightly different from the actual color of the parts. The white background photo in the legend below is the actual part, you can refer to the following diagram to identify the parts.
